

# LUX BUNG

## LUX BUNG is:

---

OFTEN THE SIMPLEST IDEAS TURN OUT TO BE THE BEST ... LUX IS A GLASS BUNG WITH A SILICONE REMOVABLE BASE, WHICH COMBINES THE TECHNICAL ADVANTAGES OF THESE TWO MATERIALS.

LUX BUNG allows for use in both vinification and aging with:

- A glass side for non-hermetic closure, making de-gassing easier
- A silicone side to prevent gas exchanges with outside air

This bung is not only technically sophisticated, but it also offers impressive aesthetics in the cellar, whether used on the glass or the silicone side.

## TECHNICAL INFORMATION

---

### BUNG

- Silicone thickness: 5 mm
- Base dimensions:  $\varnothing$  base = 44 mm  
 $\varnothing$  top = 50 mm
- Recommended bung hole:
  - $\varnothing$  48 mm for 21 mm barrels
